

Tapibel rugs

Luxury takes on new meaning

Enter a world where luxury takes on new meaning. Tapibel introduces the **New Worlds rugs**. These rugs combine splendour with lasting design thanks to the regenerable ECONYL® yarn from our silky-soft New Worlds collections. A statement piece in any space.

Create your own rug

01

Discover the New Worlds collections

02

Choose the colour

03

Choose the shape

04

Determine the size

05

Choose the finish

06

Place your order

01

Discover the New Worlds collections

To start, choose which of the **five New Worlds collections** you would like to use for your rug.

02

Choose the colour

Based on the chosen collection, select the desired **colour** of your rug.

The New Worlds collections

Almyra

Velvet under your feet, downy feathers that tickle your toes. Top end elegance. Enter the world of Almyra.

Matera Primo

Sink deeply into a king size four-poster bed, enjoy the splendour and optimal comfort.

Medina

Silky smooth, luxurious, high-end residential. Walk the various paths with a luxurious feeling underfoot.

Soneva

Regal and lavish. Let yourself float, almost weightless, on the rippling waves. A true feast for your senses.

Zalina

Softness and a beautiful gloss effect combined with affordable warmth and a homely atmosphere.

03

Choose the shape

Then choose from the **four possible shapes: rectangle, round, pebble or drip.**

Angular design
Traditional standard shape

Available in three standard sizes,
 depending on the finish you choose:

- Volume finishing**
- 1. **Small:** 140 x 190 cm
 - 2. **Medium:** 170 x 230 cm
 - 3. **Large:** 190 x 300 cm

- Blind hem finishing**
- 1. **Small:** 140 x 190 cm
 - 2. **Medium:** 170 x 230 cm
 - 3. **Large:** 190 x 300 cm

Circle design
Trendy standard shape

Available in three standard sizes,
depending on the finish you choose:

Volume finishing

- 1. **Small:** 160 cm
- 2. **Medium:** 190 cm
- 3. **Large:** 300 cm

Blind hem finishing

- 1. **Small:** 160 cm
- 2. **Medium:** 190 cm
- 3. **Large:** 300 cm

Pebble

Pebble

Pebble

Pebble

Pebble

Pebble

Pebble-shaped Organic shape

Available in three standard sizes,
depending on the finish you choose:

Volume finishing

- 1. Small:** 140 x 190 cm
- 2. Medium:** 170 x 230 cm (168 x 228 cm)
- 3. Large:** 190 x 260 cm (189 x 256 cm)

Blind hem finishing

- 1. Small:** 140 x 190 cm
- 2. Medium:** 170 x 230 cm
- 3. Large:** 190 x 260 cm

Raindrop design

Organic shape

Available in three standard sizes, depending on the finish you choose:

Volume finishing

- 1. **Small:** 140 x 190 cm
- 2. **Medium:** 170 x 230 cm (168 x 228 cm)
- 3. **Large:** 190 x 260 cm (189 x 256 cm)

Blind hem finishing

- 1. **Small:** 140 x 190 cm
- 2. **Medium:** 170 x 230 cm
- 3. **Large:** 190 x 260 cm

04

Determine the size

Next, determine the size of the rug. Want fast delivery? Then choose one of our **three standard sizes small, medium or large.**

Can't find a size for you? We have a size to fit your needs.

Want to deviate from the standard sizes? You can. Let us know the dimensions of your ideal rug. By mutual agreement we will produce your rug to your size.

05

Choose the finish

Then decide on the finish of your rug. Choose blind hem finishing or volume finishing.

Blind hem finishing: the rug has a thin cotton border underneath that is stitched around the rug to ensure a neat finish.

Volume finishing: the rug has no visible edge. The edge is turned over to the inside. This invisible finish creates an extra luxurious look.

Our rugs are finished with a **antislip backing made of recycled polyester**. This is how we work towards a greener planet from the yarns to the antislip backing.

06

Place your order

The last step? Placing your order. At Tapibel, we get to work producing your ideal rugs!

Twise: sustainable initiatives for a greener planet

Our rugs and our approach fit into today's world, as we are committed to ecology and sustainability. We are always looking for ways to make our carpet and carpet production more sustainable and ecological. We make this promise a reality with concrete **ecological solutions for a more sustainable modus operandi.**

Discover Twise, Tapibel's sustainability brand.

Why Twise?

1. Tapibel is "wise" to produce greener rugs.
2. All sustainable solutions contain recyclable material. We give it a second (and third, fourth, ...) life.

The result?

A more sustainable and ecological carpet, from the yarn to the backing.

As a family business, we also think of the next generations. Thanks to these adjustments, they too can enjoy a greener world and greener carpet.

ECONYL®

The yarns

ECONYL®
ENDLESS POSSIBILITIES

The yarns of several of our collections are made of ECONYL®. The material is made of **100% renewable Polyamide 6 or nylon**. ECONYL® has exactly the same properties of standard nylon with a more durable edge: it can be regenerated indefinitely without loss of quality.

By reusing the materials, the ECONYL® yarn contributes to a **circular economy**.

Currently, **25%** of the yarns we use in production are **ECONYL®**.

Compared to virgin yarns, the **CO2 emissions** of ECONYL are reduced by **90%**.

The regeneration process of ECONYL®

1. Rescue

We collect waste (fishing nets, dust scraps, old rugs, etc.). The materials are cleaned and sorted.

2. Regenerate

After a thorough regeneration and purification process the nylon waste is returned to its original state. The raw material now consists of pellets and dispersions.

3. Remake

ECONYL® regenerated nylon is processed into yarns and textile.

4. Reimagine

With this new yarn, manufacturers such as Tapibel can get to work. We create new ECONYL® carpet collections.

Ecofuse

The adhesive

Ecofuse is our **ecological alternative to the traditional latex adhesive** compound in both wall-to-wall carpet and carpet tiles. We replace the latex by a sustainable, post-consumer product called PVB (PolyVinyl Butyral), extracted from used car windows and laminated building glass.

The benefits

of sustainable origin

non-toxic

futureproof

The switch to PVB results in a latex reduction
of **500 tonnes!**

Scan the QR code and discover
the PVB production process!

Ecofuse in our rugs

At Tapibel, we use Ecofuse in many of our rugs. Both in broadloom and in carpet tile.

Precoat

The first adhesive layer between yarn and primary backing, to ensure that the yarns bond firmly.

Secondary backing

A second adhesive layer is applied to glue the action or felt backing onto the actual carpet. This final process ensures that the broadloom carpet obtains more body and rigidity.
